PRODUCT DESCRIPTION

UNIGLOVES COMFORT® 300

The long glove

Measuring 295mm in length, the Comfort 300 Premium latex glove features a non-slip surface and is a hygienic, protective latex glove primarily used in the medical sector. The disposable glove has been tested in line with PPE Regulation (EU) 2016/425 and European standards EN 374, EN 420 and EN 455. The durable material is waterproof and protects against viruses, fungi and bacteria. The non-slip surface of the Comfort 300 ensures safe use in sensitive areas and is particularly skin-friendly with a protein content of less than 50 µg/dm². The flexible fit also guarantees excellent comfort. This non-powdered glove is easy to put on and remove thanks to chlorination and its rolled cuff. The ambidextrous design of the glove allows for fast, frequent changes.

The Comfort 300 is available in a natural colour and sizes XS, S, M and L.
