PRODUCT DESCRIPTION

Unigloves CONTACT®

The soft glove

Thanks to its **polymer coating**, the Contact® **premium** disposable glove is a particularly **gentle** hygiene and protective glove that is suitable for use in medical areas, the food and cosmetics industries and when handling chemicals.

Made from high-quality natural latex, the disposable glove is certified as a **type B chemical protection glove** in accordance with the European standard **EN ISO 374-1** in addition to the standards **EN ISO 21420 and EN 455** in

accordance with the **PPE Regulation (EU) 2016/425** and is primarily used in hospitals and doctors' surgeries.

The waterproof material is **noticeably soft** and is characterized by precise tactile sensitivity and high wearing comfort. The polymer coating makes the Contact® **extremely skin-friendly**, as it forms a barrier between the latex material and the user. At the same time, the resistant glove offers reliable protection **against viruses, fungi and bacteria**.

The **micro-roughened palm** ensures a secure grip and slip resistance on different surfaces. The powder-free glove is **chlorine-free** and is easy to don and doff thanks to the polymer inner coating and sturdy rolled edge. The **ambidextrous design** is also an advantage for quick and frequent changes of use.

The Contact® is available in **natural white** and in sizes **XS, S, M, L and XL**.

EIGENSCHAFTEN

MATERIAL	Latex
COLOUR	natural latex
LENGTH	240 mm
SIZE	XS (5.5-6.0), S (6.5-7.0), M (7.5-8.0), L (8.5-9), XL (9.5-10)
AQL	1.5
SERIES	Premium
QUALITY STANDARD/NORMS	Chemical resistance type B, EN 455 1-4, Food approved
APPLICATION/INDUSTRY	CARE/MED, DENTAL
SURFACE STRUCTURE	fully textured
PRODUCT FEATURES	beaded cuff, colour coding, micro-roughened palm, powder-free
PACKAGING CONTENT	box of 100 pieces
SHIPPING UNIT	10 boxes
