PRODUCT DESCRIPTION

UNIGLOVES EXPERT PLUS®

The Expert Plus is a sterile surgical glove made of high-quality natural latex. The glove has been tested in line with the Standards and Guidelines for Quality Assurance D 3577-91 and European standards EN 420, EN 455 and EN 13485. The flexible Expert Plus is extremely tear-resistant and, with a protein content of less than 50 µg/dm², it is also particularly skin-friendly. The Expert Plus is anatomically designed and impresses with its perfect fit and excellent comfort. The micro-roughened palm guarantees excellent grip and tactile sensitivity when using surgical instruments. This glove is easy to put on and remove thanks to its strong, cuffed sleeve.

The Expert Plus is available in natural white and sizes 6.0, 6.5, 7.0, 7.5, 8.0 and 8.5.
