L	1114	18100630
XL	1115	18100647
XXL	1116	18100653

## PRODUCT DESCRIPTION

### UNIGLOVES FORMAT® BLUE 300

The **Format Blue 300** is a highly durable, tear-resistant and **extra-long** hygiene and protective glove. The **food-safe** nitrile examination glove is used in medical areas, the catering and food industries as well as in beauty and hairdressing salons.

In addition to the **EN ISO 21420** and **EN 455 standards**, the multifunctional disposable glove is certified as a **type B chemical protection** glove in accordance with the **PPE Regulation (EU) 2016/425** and the European standard **EN ISO 374-1**. Thanks to its **extra thickness**, the glove is therefore an **excellent** disposable glove for **handling chemicals**.

The robust material is waterproof and offers **protection against viruses, fungi and bacteria**. The latex-, thiuram- and protein-free nitrile is extremely skin-friendly. **Roughened fingertips** ensure slip resistance while maintaining a high level of **tactile sensitivity**. The glove is particularly easy to don and doff thanks to the stable rolled edge. In addition, the flexible fit and ambidextrous design facilitate quick and alternating use. The Format Blue 300 is available in **blue** and in sizes **S, M, L, XL and XXL**.
