Successor product from [Unigloves SOFT® NITRIL BLUE PREMIUM - 80x0-374](#)

PRODUCT DESCRIPTION

Unigloves FORMAT® BLUE

The Format Blue Premium nitrile glove is a food-safe hygiene and protective glove that is used in medical areas, the catering and food industry as well as in cosmetic and hairdressing salons. The versatile disposable glove has been tested in line with PPE Regulation (EU) 2016/425 and European standards EN 374, EN 420 and EN 455. The durable material is waterproof and protects against viruses, fungi and bacteria. The latex-free, thiuram-free and protein-free glove is also particularly skin-friendly. Roughened fingertips ensure excellent grip while maintaining a natural sense of touch. The glove is easy to put on and remove thanks to its strong, cuffed sleeve. Meanwhile, it is quick and easy to change thanks to its flexible fit and ambidextrous design. The Format Blue is available in blue and sizes S, M, L and XL.
