PRODUCT DESCRIPTION

Unigloves LANO-E-GEL®

The nourishing glove

The **Lano-E Gel premium latex** disposable glove is characterised by **nourishing** vitamin E and lanolin. The hygienic, protective glove is suitable for use in hospitals, medical practices, catering and food industries as well as the cosmetics industry and handling with chemicals.

In addition to the **EN ISO 21420** and **EN 455** standards, the multifunctional disposable medical glove is certified as a **type B chemical protection** glove in accordance with the **PPE Regulation (EU) 2016/425** and the European standard **EN ISO 374-1**.

The resistant and durable material is waterproof and protects against **viruses, fungi and bacteria**. The **micro-roughened palm** of the Lano-E Gel provides a secure, non-slip grip on various surfaces. The latex is extremely stretchy and is **particularly skin-friendly** with a protein content of less than 50 µg/dm². This non-powdered glove is easy to put on and remove thanks to chlorination and its rolled cuff.

The ambidextrous design of the glove allows for fast, frequent changes. The Lano-E Gel is available in a **natural colour** and sizes **XS, S, M, L and XL**
