XXL	241PC18-11

## PRODUCT DESCRIPTION

### NITREX 241PC18

Our Nitrex Cut Resistant Gloves range has been designed to protect workers' hands against threats from sharp objects, such as those posed by sharp blades, plate glass, or heavy metal stamping. **Featuring cut level C** (equiv cut resistance level 5) resistance, Nitrex 241PC18 polyurethane palm coated gloves will stand up to some of the more extreme cutting threats and have been tested to withstand up to **15 newtons of pressure from sharp objects** under the **EN388 European standard**.

The protection that these cut resistant gloves offer goes well beyond cut protection. Our Nitrex **241PC18 PU** coated work gloves also **feature excellent abrasion and tear resistance**, thanks to their unique ultralight liner. Constructed from a seamless blend of nylon, Spandex®, HPPE (high-performance polyethylene), glass, and steel, the liner is not only **ultra-lightweight**, but offers a close fit for dexterity, comfort, and breathability; helping hands to stay dry, whilst reducing irritation and fatigue even after long hours of hard work.

The Nitrex 241PC18 cut resistant gloves' PU palm coating is the material of choice for applications that **benefit from a comfortable, light weight, and flexible work glove**. The lightest, softest, and most flexible of the

coating choices, polyurethane is durable and robust and offers the best dexterity and tactile sensitivity available - making it a popular choice for applications where comfort and grip are priorities. Ideal for dry grip situations and offering ease of handling small parts, the PU palm coated gloves also maintain grip in lighter oil conditions.

For some of the most versatile cut resistant gloves on the market, **there's no beating the Nitrex 241PC18 PU palm coated gloves.**

The Nitrex 241PC18 is available in blue/black in sizes XS, S, M, L, XL and XXL.
