PRODUCT DESCRIPTION

NITREX 245N

Our Nitrex 245N **high dexterity cut resistant gloves** are a part of our Nitrex Cut Resistant Gloves range and offer high levels of protection against cuts from sharp metal objects, glass, and other sharp materials. Featuring **NitreGuard® Technology**, these gloves have been tested to withstand **≥15 newtons (EN388:2016)** under a straight blade cut test. Recommended for use in industries working with glass, sharp metals, and other cut threats, rest assured that these **hard-wearing work gloves** will keep your workers protected.

In addition, the Nitrex 245N is **OEKO-TEX® STANDARD 100** certified to ensure that our gloves are **free from harmful substances** and **protect the health** of your employees.

Nitrex 245N reinforced gloves also feature our **NitreGrip® Technology**, affording them an assured grip in dry, wet, or even oily conditions. This technology reduces the need for a stronggrip, which reduces hand fatigue and ensures the ongoing performance of the glove, even in tricky wet, oily, or greasy conditions. The comfortable sandy nitrile coating of these cut resistant gloves offers maximum abrasion and tear protection and is also resistant to oils and grease – making them exceptionally versatile and highly protective and long-lasting, even when regular contact with these types of hazards is required. The **reinforced thumb crotch** further assists in

protecting hands against abrasive materials and helps to extend the life of the glove.

The medium weight cut resistant liner with an elasticated wrist of our Nitrex 245N gloves are constructed from HPPE, basalt, and steel to provide not only **high-level cut resistance**, but a comfortable, form-fitting, and breathable solution that ensures dexterity, flexibility, and reduced fatigue **even after long hours of use** in hazardous conditions. Nitrex 245N offers you **a long-lasting, high-value, and superior safety solution** for your toughest workplace tasks.

The Nitrex 245N is available in grey/black in sizes S, M, L, XL and XXL.
