XXL	255RP-11

PRODUCT DESCRIPTION

NITREX 255RP

Sustainable, water based PU palm coated gloves are our breathable and designed with a **50% recycled plastic polyester yarn liner, contributing to a 15.4g CO2 equivalent reduction** in our carbon footprint per pair. As we're committed to minimising our environmental impact wherever possible, we have also developed **plastic-free inner packaging** for the entire Nitrex sustainable range.

But the environmental efforts at Unigloves don't stop at our gloves and packaging. In partnership with **Ecologi**, we neutralise any unavoidable emissions related to this product by funding projects aimed at **removing carbon directly from the atmosphere**.

Nitrex 255RP breathable work gloves are independently certified by **OEKO-TEX® STANDARD 100**, ensuring they have been rigorously tested and certified as **free from harmful substances**. The superlight duty liner of Nitrex 255RP offers unparalleled dexterity and flexibility, reducing hand fatigue during extended use. With **RCS (Recycled Claim Standard) certification**, you can trust our commitment to manufacturing products containing **recycled materials**, while never compromising on comfort or protection.

One of the other standout features of Nitrex 255RP gloves is their **touchscreen compatibility**. Users can operate touchscreen devices such as mobile phones or tablets, without having to remove the gloves, therefore keeping hands protected from potential injuries at all times. In addition, the durable, water-based PU construction of Nitrex 255RP ensures excellent grip in both dry and damp conditions. This unique combination of durability, breathability, and dexterity makes these gloves perfect for a wide range of applications, no matter how challenging the conditions.

The Nitrex 255RP is available in red/black in sizes XS, S, M, L, XL and XXL.
