PRODUCT DESCRIPTION

Nitrex 270NF

Nitrex **270NF** nitrile foam gloves from our Nitrex General Handling Gloves range are ideal for the types of applications requiring a high level of dexterity, even in **wet or oily conditions**. The versatile 270NF nitrile palm coated gloves offer not only the **superior protective qualities** of nitrile, but also afford the wearer **excellent fit and feel**. These gloves feature a light weight lining and flexible foam nitrile palm coating which assists in wicking away moisture from the palms to maintain grip in dry, wet, or even oily conditions, while leaving the back of the hand coat-free and **breathable**. This means a greatly reduced chance of dermatitis and sensitive skin complications, often resulting from sweaty hands and extended use; thus helping your workplace maintain productivity and performance without conceding on safety.

In addition, the Nitrex 270NF is **OEKO-TEX® STANDARD 100** certified to ensure that our gloves are free from harmful substances and protect the health of your employees.

The Nitrex General Handling Gloves range by Unigloves, including our Nitrex 270NF nitrile foam gloves, are ideally suited to warehousing, assembly, and general handling roles where abrasions are a major factor. Tested to

European standard **EN388** and meeting level 3 abrasion protection, not only do the Nitrex 270NF foam nitrile palm coated gloves offer wearers **exceptional protection** against scrapes, scratches and grazes, but they are also extremely durable, long-lasting, and **excellent value for money**. Meanwhile, their 15 gauge polyester lining means excellent dexterity, comfort and tactility, making them an ideal solution for precision handling and assembly applications.

The Nitrex 270NF is available in **blue with a black palm coating** in sizes **XS, S, M, L, XL and XXL**.
