SIZE	REF
XS	270NFP-06
S	270NFP-07
M	270NFP-08
L	270NFP-09
XL	270NFP-10
XXL	270NFP-11

## PRODUCT DESCRIPTION

### NITREX 270NFP

Our Nitrex 270NFP firm grip nitrile gloves are an excellent **safety glove solution** for a broad variety of workplace applications. However, these are no ordinary work gloves. Featuring our advanced NitreGrip Technology, Nitrex 270NFP is a superior glove for those jobs where a **secure grip** is of the utmost importance.

NitreGrip® Technology occurs in the Nitrex range of gloves that feature a **new, advanced surface** treatment that provides a secure grip when working in **wet and oily conditions** and maintains its quality when used in the dry.

The sandy nitrile gives an assured grip finish on the nitrile's surface, comparable to a suction cup that attaches itself firmly to the material being handled.

The surface treatment **reduces the force needed to grip** and allows the glove to stay soft and therefore comfortable, **which reduces hand fatigue**.

Of course, these general handling gloves offer wearers much more than an advanced firm grip. The nitrile coating of these seamless **15 gauge nylon-lined** gloves offer excellent abrasion and tear protection to defend hands and wrists against scrapes and scratches from abrasive materials, while the seamless light weight liner is **ultra-comfortable**. Also resistant to damage from oils and grease, the Nitrex 270NFP general handling gloves afford excellent protection, all whilst being comfortable to wear all day long.

In addition, the Nitrex 270NFP is **OEKO-TEX® STANDARD 100** certified to ensure that our gloves are **free from harmful substances** and **protect the health** of your employees.

The Nitrex 270NFP is available in grey/black in sizes XS, S, M, L, XL and XXL.
