PRODUCT DESCRIPTION

NITREX 295RP

13 gauge sustainable seamless cut level F liner

Unigloves' Nitrex 295RP are the **ultimate high risk safety gloves**, designed to withstand even the toughest of working conditions. These green and black grip gloves feature a medium weight liner and NitreGuard technology for **maximum cut protection (cut level F)** and enhanced durability against rough, sharp, and abrasive materials. The **TPE protection** across the back of the hand acts like a barrier, passing the **EN388** impact test and providing all important mechanical protection. In addition, the Nitrex 295RP's reinforced thumb crotch offers increased protection when handling ropes and other abrasive materials, which increases the life of the glove and protects the wearer during even the most challenging applications.

With their sandy nitrile palm coating and **NitreGrip Technology** (an advanced surface treatment proprietary to Unigloves) these gloves also provide a **reliable grip** in dry, wet, or oily environments, making them the perfect solution for both grip and performance.

Nitrex 295RP includes a **seamless 13 gauge liner** that delivers excellent dexterity and flexibility, effectively

reducing hand fatigue during extended use. To further protect workers' hands throughout the workday, the **touchscreen compatible** feature of these gloves enables workers to efficiently operate touchscreen devices for tasks without removing their gloves. This feature ensures your workplace maintains productivity without sacrificing hand safety.

Nitrex 295RP gloves not only protect hands but also the planet. Featuring a sustainable liner made with **14% recycled polyester yarn**, Nitrex 295RP gloves help **reduce our carbon footprint by 12.5 grams CO2 equivalent per pair**. We are dedicated to achieving our sustainability goals and assisting you in achieving yours, which is why we have partnered with sustainability experts, **Ecologi**. By choosing Nitrex 295RP gloves, you can have peace of mind knowing that you're not only safeguarding your workers' hands but also doing your part for a more **sustainable future**.

Nitrex 295RP gloves are independently certified by **OEKO-TEX® STANDARD 100**, ensuring they're free from harmful substances. Holding **RCS (Recycled Claim Standard) certification**, you can trust in our dedication to creating products that incorporate **recycled materials** while maintaining comfort, effectiveness, and safety.

Touch screen compatible without having to remove the gloves and put hands at risk of injury. Available in sizes XS, S, M, L, XL and XXL.
