

#### NITREX 299G

SIZE	REF
S	299G-07
L	299G-09

#### PRODUCT DESCRIPTION

##### Nitrex 299G - the non-slip one

With its inner lining made of Thermastat fibres, the Nitrex 299G is the perfect working glove for cold environments. Certified according to **EN 511**, it offers **protection level 1**, corresponding to approximately **-10°C**. The glove Nitrex 299G is used in transport and storage operations in cold storage facilities and wherever products are handled at temperatures around freezing point. Thanks to PVC bumps, the cold protection gloves have a **non-slip surface** that enables a good grip. The ergonomic fit and high flexibility set the polyamide gloves apart, so users can even wear a smaller size than usual without any problems.

The Nitrex 299G is available in **blue** in **sizes S (women) and L (men)**.
