XL	340RF-10
XXL	340RF-11

## PRODUCT DESCRIPTION

### NITREX 340RF

The foam nitrile palm coating of our **Nitrex 340RF Cut Resistant Gloves** is flexible, **making for a better fit and greater dexterity, and assists in wicking moisture away from the glove to ensure grip is maintained.**

**Resistant to oils and grease**, the foam nitrile coating means better grip when working in challenging conditions whilst ensuring **the back of the hand can breathe**. Constructed with HPPE and **encapsulated glass fibre**, this medium weight, flexible and form-fitting design reduces hand fatigue and protects against **cuts** whilst **remaining comfortable, even after long hours of use.**

Nitrex 340RF gloves offers **heat resistance for up to 100°C** and are also **compatible with touch screens**, meaning hands are protected against cuts, abrasions, and thermal threats without the need to regularly remove gloves to interact with screens in the workplace.

**The Sanitized® Hygiene and Odour Control Function** featured in these gloves helps to **neutralise odours** and **reduce microbial growth** for healthier hands and a more comfortable user experience.

The Nitrex 340RF is available in blue/black in sizes S, M, L, XL and XXL.
