M	680-08
L	680-09
XL	680-10

## PRODUCT DESCRIPTION

### Nitrex 680 - the strong one

The Nitrex 680 is a high quality chemical protection glove that ensures good dexterity despite its toughness (**0.8 mm material thickness**). Repeated use and heavy rubbing and scrubbing leave no trace on the latex gloves. The **soft, flocked lining repels** sweat and keeps the hands pleasantly cool and fresh. The gloves are easy to put on and take off thanks to their chlorinated surface. It is also smooth and supple and offers a high level of comfort when worn for a long time. The **diamond pattern** on the palm ensures a safe grip. The material achieves additional resistance by means of a rolled edge, which prevents the penetration of liquids. The Nitrex 680 is tested according to the standards **EN ISO 374-1** and **EN ISO 374-5**, and provides safe protection against many chemicals and microorganisms. It is also approved for use in the food industry.

The Nitrex 680 is available in **grey** in **sizes XS, S, M, L and XL**.

## EIGENSCHAFTEN
