

COOLING SPRAY

FRAGRANCE	REF
Classic	9500
Mint	9800
Orange	9700

PRODUCT DESCRIPTION

UNIGLOVES COOLING SPRAY

Our cooling sprays are odourless and available in two other attractive scent variants. The spray can be precisely applied with an application tube. The cooling sprays are suitable for quickly freezing foam pellets, for checking the vitality of teeth in the dental field and for cooling impression materials such as hydrocolloid. Class I medical device.
