PRODUCT DESCRIPTION

UNIGLOVES PREMIUM®

The Premium hygienic and protective glove is a low-cost version for use in various industrial and medical areas. The vinyl disposable glove has been tested in line with the German Medical Products Act and European standard EN 455. The waterproof PVC feels extremely soft against the skin and is free from latex and proteins. The smooth surface allows a precise and natural sense of touch. The flexible fit also make it easy to put on and remove. The ambidextrous design makes the Premium an excellent choice for convenient use.

The glove is available in transparent and sizes S, M, L and XL.
