PRODUCT DESCRIPTION

UNIGLOVES SELECT® BLUE The blue glove

The Select Blue Premium latex glove is a versatile, food-safe hygienic and protective glove made from high-quality natural latex. In addition to use in the gastronomy, industry and cleaning sectors, this disposable glove is also used in hospitals and medical practices. The Select Blue has been tested in line with PPE Regulation (EU) 2016/425 and European standards EN 374, EN 420 and EN 455. The waterproof material is resistant and protects against viruses, fungi and bacteria. The micro-roughened glove surface provides extra grip when handling instruments or damp objects. With a protein content of less than 50 µg/dm², the latex is also particularly gentle on sensitive skin. The Select Blue is easy and quick to put on and remove thanks to chlorination and its rolled cuff. The flexible fit and ambidextrous design allow for fast, frequent changes.

The Select Blue is available in blue and sizes S, M, L and XL.
