PRODUCT DESCRIPTION

Unigloves SELECT® PLUS

The grippy glove

The Select ® Plus is an **extremely grippy**, food-safe disposable glove made **of high-quality natural latex**. The medical hygiene and protective glove is particularly suitable for use in hospitals and doctors' surgeries, the industrial and cosmetics sectors and for handling chemicals.

In addition to the **EN ISO 21420** and **EN 455** standards, the Select ® Plus has been tested in accordance with the **PPE Regulation (EU) 2016/425** and the European standard **EN ISO 374-1** as a **type B** chemical protection glove.

The particularly resistant material is waterproof and offers protection against **viruses, fungi and bacteria**. The micro-rough, refined surface gives the glove its enormous **grip** and ensures a **first-class support** when handling smooth or damp objects.

The **polymer inner coating** and the stable rolled cuff of the powderfree glove ensures a comfortable and **smooth donning and doffing**. The flexible fit and ambidextrous design make frequent changes of use easy.

The Select ® Plus is available in the color **natural white** and the sizes **XS, S, M, L and X**.

EIGENSCHAFTEN
