XL	9005-200	18102675

With "MORE" gloves, you not only save packaging waste, but also protect the environment. Because less energy and resources are used in the manufacturing process.

PRODUCT DESCRIPTION

Unigloves SOFT® BLACK

The SOFT® BLACK is a food-safe hygienic and protective glove used in gastronomy and food production as well as in various medical areas. The disposable nitrile glove has been tested in line with PPE Regulation (EU) 2016/425 and European standards EN 374, EN 420 and EN 455. The waterproof material is resistant and protects against viruses, fungi and bacteria. The glove is latex-free, thiuram-free and protein-free and is extremely skin-friendly. The micro-roughened fingertips provide a secure grip without reducing touch sensitivity. This non-powdered glove is easy to put on and remove thanks to its strong, cuffed sleeve. The ambidextrous design and flexible fit makes the Soft Nitril Black 200 the perfect choice where frequent changes are required.

The glove is available in black and sizes S, M, L and XL.
