**PRODUCT DESCRIPTION**

**UNIGLOVES SOFT® NITRIL BLUE 300**

The Soft Nitril Blue 300 is an extra-long, food-safe hygienic and protective glove used in gastronomy and food production as well as in medical areas. The nitrile disposable glove has been tested in line with PPE Regulation (EU) 2016/425 and European standards EN 374, EN 420 and EN 455. The durable material is waterproof and protects against viruses, fungi and bacteria. The nitrile is free from latex, thiuram and protein, making this glove extremely skin-friendly. The micro-roughened fingers and palms ensure excellent grip on various surfaces. This non-powdered glove is easy to put on and remove thanks to its strong, cuffed sleeve. The ambidextrous design also makes it easy to put on and remove.

The Soft Nitril Blue 300 is available in blue and sizes S, M, L and XL.
