PRODUCT DESCRIPTION

UNIGLOVES SOFT® NITRIL BLUE

The Soft Nitril Blue is a food-safe hygienic and protective glove used in gastronomy and food production as well as in hospitals and medical practices.

In addition to the EN ISO 21420 and EN 455 standards, the multifunctional disposable glove is certified as a type C chemical protection glove in accordance with the PPE Regulation (EU) 2016/425 and the European standard EN ISO 374-1. The waterproof, durable material protects against viruses, fungi and bacteria. The latex-free, thiuram-free and protein-free glove is also extremely skin-friendly. The micro-roughened fingers and palms ensure excellent grip on various surfaces. This non-powdered glove is easy to put on and remove thanks to its strong, cuffed sleeve and flexible fit.

The ambidextrous design also makes it convenient to use.

The Soft Nitril Blue is available in blue and sizes S, M, L and XL.
