PRODUCT DESCRIPTION

Sterilisation Pouches

Unigloves sterilization pouches - safety and hygiene for medical needs.

For medical facilities, such as hospitals, dental offices and doctors' offices, effective sterilization of medical instruments is essential. Unigloves sterilization pouches provide a high quality solution for the safe storage and sterilization of medical instruments.

These sterilization pouches are made of high quality material and offer high strength and durability. They are available in a variety of sizes to meet the diverse needs of medical facilities. Each pouch is equipped with a convenient indicator that shows whether sterilization was successful.

Unigloves sterilization pouches are easy to use and provide a high level of safety and hygiene. Each pouch is individually wrapped and supplied sterile to ensure safe use. The pouches are also equipped with a self-adhesive closure for easy and safe handling.
