PRODUCT DESCRIPTION

Unigloves Stronghold+®

Measuring 290mm in length, the Stronghold Plus is the longer version of the Stronghold hygienic and protective glove. The food-safe Stronghold Plus glove is primarily used in laboratories, hospitals and medical practices as well as in various industrial areas. The nitrile disposable glove has been tested in line with PPE Regulation (EU) 2016/425 and European standards EN 374, EN 420 and EN 455. The waterproof material is extremely tear-resistant and protects against viruses, fungi and bacteria. Thanks to the latex-free, thiuram-free and protein-free nitrile, the Stronghold is extremely skin-friendly. The micro-roughened surface provides a non-slip, secure grip. The Stronghold Plus is easy to put on and remove thanks to its strong, cuffed sleeve and flexible fit. The ambidextrous design of the glove allows for fast, frequent changes.

The glove is available in purple and sizes XS, S, M, L and XL.

EIGENSCHAFTEN

APPLICATION/INDUSTRY	<i>CARE/MED, DENTAL, INDUSTRY</i>
