PRODUCT DESCRIPTION

UNIGLOVES® BLACK LATEX

The Black Latex is a hygienic, protective glove made of high-quality, natural latex for use in tattoo studios and the lifestyle industry. The disposable glove has been tested in line with PPE Regulation (EU) 2016/425 and European standards EN 374, EN 420 and EN 455. The waterproof material is extremely flexible, resistant and protects against viruses, fungi and bacteria. The micro-roughened palm guarantees excellent grip when using tattoo machines and other tools. The rolled cuff also protects against liquid drips. With a protein content of less than 50 µg/dm², the Black Latex is also particularly gentle on sensitive skin. This non-powdered glove is easy to put on and remove thanks to its strong sleeve. Meanwhile, it is easy to change thanks to its flexible fit and ambidextrous design.

The Black Latex is available in black and sizes S, M, L and XL.

EIGENSCHAFTEN

APPLICATION/INDUSTRY	<i>INDUSTRY, LIFESTYLE</i>
AQL	<i>1.5</i>
